EDUCATION AND TRAINING

6/2023-Present	University of Illinois at Chicago Department of Orthopaedic Surgery Chicago, IL Position: <u>Orthopaedic Surgery Resident</u> OITE Exam: 94 th Percentile Class of 2028 <u>Certificates, Courses, and Awards:</u> Appointed Representative, UIC Orthopaedics Class of 2028 2024: AO Basic Principles of Fracture Management (AZ), AANA Foundations in Arthroscopy (IL), AFSH Resident Scholarship (MN) 2025: ASES Regional Symposium: 1st Place Resident Research Award (IL), National Orthopaedic Leadership Conference (NOLC): Illinois State Resident Representative (Washington, DC), JnJ Future Leaders in Arthroplasty Course (FL), AOFAS Resident Skills Course Scholarship (CO) 2026: AANA E.L.I.T.E. Precision Shoulder Scholarship (IL), AFSH Resident Scholarship (MA)	
8/2019 – 5/2023	The Ohio State University College of Medicine (OSUCOM) Columbus, Ohio Degree: <u>Doctor of Medicine (MD)</u> USMLE Exam Step 1 2: 259 256 Step 3: Passed 10/2023 Additional clerkships: Mount Carmel Health Systems (OH), Einstein Medical Center (PA), University of California San Francisco (CA), University of Pennsylvania (PA) <u>Honors and Awards:</u> May 2023 <i>Cum Laude</i> Honors Designation December 2022 Cramblett Family Research Scholarship August 2022 Arthur Family Scholarship in Medicine July 2020-22 OSUCOM Outstanding Academic Scholar Award x3 January 2022 Mid-America Orthopaedic Association Medical Student Education Grant August 2021-April 2022 Letters of Commendation, Internal Medicine, Neurology, Pediatrics, and Family Medicine Clerkships, UPSMN and UPWP Block Honors Designation, Orthopaedics and Psychiatry Clerkships January 2020 Barnes Medical Student Research Fellowship	
8/2014 - 4/2018	University of Pittsburgh Swanson School of Engineering Pittsburgh, Pennsylvania	GPA: 3.81 MCAT: 516 Bachelor of Science in Engineering: Bioengineering Concentration: Biomechanics and Biodynamics Minors: Chemistry <u>Honors and Awards:</u> April 2018 <i>Summa cum Laude</i> , Outstanding Biomechanics Student of the Year, Honors College Scholar Designation April 2016 Honors College Health Sciences (HCHS) Fellowship Award, Swanson School of Engineering Research Fellowship Award April 2015 Summer Undergraduate Research Award (SURA) 2014 - 2018 Dean's List

RESEARCH EXPERIENCE

PROFESSIONAL ORGANIZATIONS

- American Association for Hand Surgery Resident Member 2025-Present
- Illinois Association of Orthopaedic Surgeons, Resident Representative 2025-2026
- American Orthopaedic Society for Sports Medicine (AOSSM) Resident Member 2025-Present
- Clinical Orthopaedic Society (COS) 2025-Present
- Orthopaedic Research Society (ORS) 2024-Present
- American Society for Surgery of the Hand (ASSH) Candidate Member 2024-Present
- American Orthopaedic Association (AOA) Resident Member 2023-Present
- Landacre Research Honor Society, Inducted 2022
- Alpha Omega Alpha (AOA) Honor Society Inducted 2022

INTERESTS

Wellness- I workout ~5x/week, cook and bake healthy high protein meals regularly, & can Air Fry things you didn't know could be Air Fried! I used to run a nutrition podcast and also helped my brother build his business the JACKEDNLEEN Gym, and may one day compete myself

Travel- I vacation anywhere that I can hike, ski, or boat, or visit old friends around the world

Music- As a childhood trombonist and piano player, I've rediscovered my love for playing the piano and also DJ at weddings, bars, and clubs occasionally on weekends

Sports- Tennis, golf, pickleball, volleyball, softball, spikeball, with friends or in rec leagues

Concerts/festivals- have attended hundred of electronic, rock, Jazz, pop, Classical, rap & country artist performances

DIY- Build furniture, household fixer-uppers, & occasional car repairs

Dancing- glory days on my college team, now local swing/salsa/bachata night & at concerts

SKILLS

Proficient in Spanish language/Medical Spanish, Intermediate Proficiency in Ultrasound for clinical use (Advanced Ultrasound Certificate, OSUCOM 2020-2023), Epic Hyperspace EMR Software, Video editing (Adobe Premiere, Windows Movie Maker, DaVinci Resolve), Basic proficiency in SolidWorks design, 3D printing, STATA 14.0, GraphPad statistical analysis softwares, Programming (Previously trained on Matlab, Visual Studio and Labview).

HOMETOWNS

Kansas City, MO; Wauke, IA; Northville, MI; Andover, NJ; St.Michael, MN;

SHORT BIO

One thing I will never take for granted is the opportunities granted to me by my childhood orthopaedists. After being born with severely deformed bilateral clubbed feet, I spent a considerable amount of time with my providers to ensure proper foot and ankle development and injury treatment and prevention. This time spent was only increased by the number of different states I lived in throughout the country; moving around frequently taught me to embrace new experiences, such as meeting new people, traveling, and acquiring new hobbies like dancing, DIY projects, and recreational activities such as skiing, tennis, volleyball, and hiking. Although I was by no means a star athlete growing up, my ability to participate in these adventures was all thanks to the work of my orthopaedic surgeons that took care of me with each injury I sustained or reaggravated. Through these personal experiences, I became enamored with health and wellness, including musculoskeletal anatomy and biomechanics, nutrition, and fitness. When coupled with the desire to work with my hands that I developed through my early obsession with Legos, I became set on going into the field of Orthopaedic Surgery from an early age. Now, I eagerly pursue any opportunity I can to improve my clinical, surgical, and scientific skills as I progress through my career.

My clinical and research interests are primarily in the fields of Hand and Upper Extermity surgery, including sports medicine, degenerative disease, neuropathies, microsurgery, and trauma. As an engineer, I enjoy investigating orthopaedic topics through the lens of biomechanics and device design. I believe that a firm understanding of the basic science that governs implant and repair stability can help optimize orthopaedic interventions and improve treatment outcomes and look forward to conducting such studies throughout my career. I hope to gain knowledge and experience with different surgical devices and techniques throughout my training so that I may work with academic and industry partners as a medical device consultant and contribute to the landscape of orthopaedic and rehabilitative technologies.

CLINICAL EXPERIENCE

10/2025 10/2026	Orthopaedic Surgery Mission Trip , Community Empowerment Clinical and Surgical Volunteer	Azua, Republica Dominicana
	- Assisted in coordinating 6-day surgical mission trip partnering with Community Empowerment and Rush University Office of Global Health to raise funds, acquire donated medical and surgical supplies, and transport equipment to Santo Domingo, DR - Conduct in-person and telehealth visits to examine, diagnose, provide conservative treatment, and triage potential surgical candidates from local communities at Hospital Regional de Taiwan in the village of Azua - Performed surgeries and conducted post-operative follow ups visits, and collaborated with local nurses, physicians, and therapists to establish continuum of care for patients with conditions including chronic infection, post traumatic stiffness, arthritis, deformity, and acute trauma - Translated medical spanish to aid in communication between Spanish speaking patients and other English-speaking members of the team	
9/2019 – 5/2023	La Clinica Latina , OSUCOM Student-Run Free Clinic Community Health QI Project Director, Clinical Volunteer	Columbus, OH
	- Conduct in-person and telehealth visits to examine, diagnose, treat, and follow-up a wide variety of medical conditions affecting patients from underserved and predominantly Hispanic backgrounds - Translate medical Spanish to facilitate connection between physicians and patients and aid patients in applying for financial assistance programs - Executed clinic-wide quality improvement project aimed at improving patient experience and provider efficiency through reforming patient intake, discharge, and educational materials using AHRQ principles and expanding access to statin medications in appropriate populations - Instituted a protocol to encourage voter registration rates among the patient population to foster participation in local and state political reform	
8/2019 – 5/2023	Columbus Free Clinic , OSUCOM Student-Run Free Clinic Clinical Volunteer	Columbus, OH
	Conduct interviews, examine, and formulate treatment plans for underserved patients with diverse backgrounds from the greater Columbus area	
8/2017 – 6/2018	UPMC Community Medicine Incorporated Medical Assistant	Pittsburgh, PA
	- Performed Completed patient intake and discharge, including providing patients with instruction on medication usage and coordination of future follow-up - Aided physicians during in-office procedures and executed lab draws, vaccinations, EKGs, dressing changes, and postsurgical wound care - Fulfilled administrative tasks of transmitting prescription refills, updating patient medical records, and completing insurance forms.	
5/2017 – 8/2018	Salud Clinic , Birmingham Free Clinic Volunteer and Student Translator	Pittsburgh, PA
	- Recorded patient present illness, vital signs, and pertinent past medical history - Provided translation services during appointments and pharmaceutical consults	
1/2016 – 7/2016	PFCC Innovation Center , Magee Women's Hospital of UPMC Volunteer Shadowing Intern	Pittsburgh, PA
	- Observed and recorded data on clinical workflow throughout multiple hospital and interviewed patients and families about their care experience - Devised process maps highlighting inefficiencies in patient transport, nursing requests, and physician response time to initiate optimization of patient satisfaction and cost-effective care	
5/2015 – 8/2017	UPMC Sports Medicine Center, Presbyterian Hospital Clinical Volunteer	Pittsburgh, PA

- Assisted physical therapists during patient encounters with equipment, exercises, and organization of training floor
- Engaged patients and families in ED waiting room, enhanced ED room turnover time, and acquired supplies for nurses and physicians

LEADERSHIP & VOLUNTEERING EXPERIENCE:

7/2023 – Present	Class Representative, UIC Orthopaedic Surgery Appointed and Elected for Residency Class of 2028 ● Assist with conducting monthly meetings with program leadership and regular meetings with Chief Residents to address residency program improvement initiatives, including optimizing education and didactics, quality improvement projects for clinical, surgical, and research workflows, and facilitating social events within the residency program ● Manage the UIC Orthopaedic Surgery Instagram account ● Traveled with the AAOS and NOLC for annual Leadership meeting in Washington, DC to advocate to congress on Capitol Hill for improved funding for orthopaedic surgery research and encouraged passage of legislation to enhance orthopaedic surgeons ability to provide quality care to patients	Chicago, IL
9/2022 – 5/2023	Alpha Omega Alpha Honor Society, Gamma Chapter Research Committee ● Promote research opportunities within the College of Medicine for students, including advertising and evaluating applicants for AOA research grants and organizing peer research review sessions	Columbus, OH
5/2020 – 5/2023	Student Council, OSUCOM Executive Board: Outreach and Events Chair, Elected Representative ● Facilitated communication between administrators and student body through biweekly deans meetings, student body meetings, and committee meetings. ● Secured a budget of \$39,000 through merchandise and ticket sales for “MedProm 2022” formal gala and \$59,000 for 2023 event ● Allocated “MedProm” funds and coordinated venue rentals, catering, entertainment, decorations, and security for yearly 800-guest event ● Orchestrated social and community outreach events including trips to Columbus sporting and arts events, volunteering with Meals on Wheels and other community charity events, and trips to support local business ● Modernized medical student wellness facilities through purchase of free weight and endurance equipment, speakers, and yoga/meditation supplies ● Strengthened academic programming through administering student feedback forms, hosting Q&A sessions, and serving as liaison during LCME accreditation process ● Implemented new structure of council meetings to emphasize action items for committees and ensure meeting attendance and engagement	Columbus, OH
5/2020 – 5/2023	Orthopaedic Surgery Interest Group, OSUCOM Mentor ● Mentor younger medical and pre-medical students regarding academics, admissions and residency advice, and research opportunities, and tutored individuals in musculoskeletal anatomy	Columbus, OH
12/2019 – 5/2023	Bite Sized Medicine, Medical and Dietetics Podcast Podcast Host, Co-Chief Editor ● Create easily digestible podcast episodes discussing nutrition and wellness in an evidence-based manner for a target audience of patients, medical students, and practicing physicians alike ● https://tinyurl.com/BiteSizedMedicine ● Conducted literature reviews, wrote research summaries, and executed podcast scripts on topics such as green tea, protein intake, the science of intermittent fasting, and more	Columbus, OH
10/2019– 5/2023	Portfolio Coaching Leadership Board, OSUCOM Student Representative	Columbus, OH

- Collaborate with College of Medicine Deans and Academic Directors to refine the portfolio coaching program used to track students personal and professional growth throughout medical school
- Gather student feedback and present class opinions during discussions at quarterly meetings

4/2020 – 5/2021

STEM in Medicine, OSUCOM
Treasurer

Columbus, OH

- Managed organizational budget and programming costs including materials for 3D printing workshops and transportation for local industry tours
- Provided opportunities to medical students with STEM backgrounds that wish to connect with medical device companies or assist in undergraduate/graduate capstone engineering projects within Ohio State University

2/2020 – 4/2021

Safety Nets Mental Health Group, OSUCOM
Co-Founder, Outreach Chair

Columbus, OH

- Co-founded new student nonprofit organization partnered with Ronald McDonald House Charities of Central Ohio that uses recreational activities such as ping-pong, Spikeball, and volleyball to provide a safe space for students to relax and destress
- Organized and promoted charity ping-pong tournament and virtual trivia nights with prizes as a form of socially distanced entertainment and networking
